

# The Novartis Lectureship in Chemical Sciences

AT THE UNIVERSITY OF PENNSYLVANIA

## **Julien Papillon**

Novartis Institutes for Biomedical Research

*Discovery of orally active inhibitors of  
BRM/ SMARCA2 ATPase activity for the  
treatment of BRG1/ SMARCA4-mutant cancers*

## **Anna Marie Pyle**

Yale University &  
Howard Hughes Medical Institute

*RNA tertiary structure and its role in  
molecular recognition: Lessons from  
self-splicing group II introns and  
lncRNA molecules*

**Thursday, November 29, 2018**

2:00 PM

Carolyn Hoff Lynch Lecture Hall

This lecture series is made possible through the generosity of the  
**Novartis Institutes for Biomedical Research.**
